

SUPERVISOR'S ASSESSMENT OF A WRITTEN THESIS

Thesis title: The Impact of Artificial Intelligence on the Art Market
Thesis author: Cyprian Sprawka
Programme of study: Photography
Programme type: [Bachelor's]

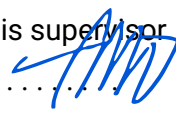

Evaluator's overall summary:

Cyprian Sprawka's bachelor thesis focuses on the impact of artificial intelligence on the art market – at least the reader could get such an impression based on the title, abstract and introduction. In reality, the problem of the transformation of the art market by AI is discussed only on a few pages and limited to AI-generated artworks and blockchain technology. Most of the thesis is composed of comments on various aspects of AI in the art world very broadly conceived. I recommend the thesis for the oral defence with grade C.

Questions and topics for discussion at the oral defence: Could one think of AI impacting the automation of actual art market processes?
